

# Regional Transportation Planning Work Plan

Fiscal Year 2026  
(July 2025 – June 2026)

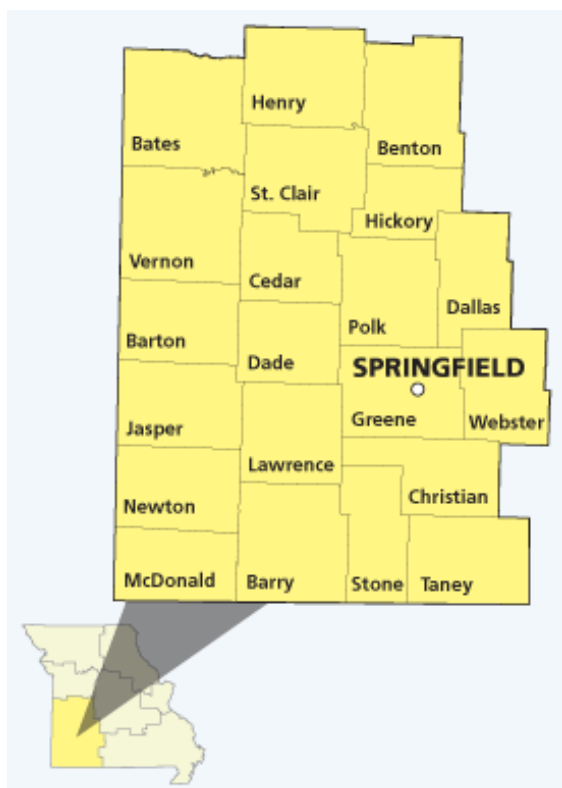

Southwest Missouri Council of Governments  
c/o CRPM, 901 S National Ave  
Springfield, MO 65897

## Regional Maps

SMCOG serves ten southwest Missouri counties in the Springfield area. These include Barry, Christian, Dade, Dallas, Greene, Lawrence, Polk, Stone, Taney, and Webster counties.

SMCOG is within the Southwest MoDOT District which includes 21 counties.

## Introduction

The Southwest Missouri Council of Governments is designated as a Regional Planning Organization (RPO) and Transportation Planning Partner with the Missouri Department of Transportation (MoDOT) and is charged with the responsibility of identifying local and regional transportation needs, prioritizing transportation needs, educating the public and general transportation stakeholders about the transportation planning and investment process, and coordinating transportation improvements with local, regional, and state development activities. To help fulfill this responsibility and engage regional leaders, the Board of Directors approved a policy that establishes the process for appointing representatives of the region's Transportation Advisory Committee (TAC). The policy was developed to provide an equitable and established process for appointing members to the committee.

The TAC plays an important role in the transportation planning process. The TAC is assigned the duty of identifying and prioritizing transportation needs within the region and recommending these priorities to the SMCOG Board of Directors. The board-approved TAC recommendations are then presented to MoDOT for consideration in the development of the Statewide Transportation Improvement Program (STIP). The STIP is the tool used by MoDOT to make critical transportation investments in the State of Missouri.

The Regional Transportation Planning Plan outlines the planned activities of SMCOG's cooperative program with MoDOT to provide transportation planning services to the rural and urbanized areas of the region. The work plan also includes general activities to enhance the effectiveness of transportation planning in general such as land use planning, economic development, GIS services, professional development for staff, and public engagement and educational activities.

This work plan is for the 2026 Fiscal Year, July 2025 through June 2026.

## Task 1: Administration

*Purpose:* This task covers general administrative tasks related to the execution of the contract to include, but not limited to accounting, reporting, performance evaluation, and general correspondence. All reporting will follow the guidelines described in 23 CFR 420.117(b), as well as maintain the required documentation for work elements as described in 23 CFR 420.111. This is necessary for reimbursement of RPO funds from MoDOT and provides the audit detail to justify the continued funding availability.

All indirect and direct expenses other than salaries and fringe related to the execution of this work plan will be included in Task 1, as allowed by the instructions provided in the MoDOT RPC Reporting Form, to simplify the reporting process and provide flexibility in completing the goals and activities in this work plan in a more efficient and effective manner. SMCOG anticipates purchasing supplies such as toner and ink for a duplex color printer, and any items needed for a transportation planner to conduct planning activities. Additionally, membership for MACOG, APA, NADO, and MML will be maintained.
